[Interpretation 1 of General Conservation Order L-50 as Amended April 23, 1942]

The following official Interpretation is hereby issued by the Director of Industry Operations with respect to § 1095.1 (b) (2) (i) of General Conservation Order No. L-50, as Amended April 23, 1942: 1

"The demands for service reasonably required by persons engaged in direct defense or charged with responsibility for public health, welfare or security" and required by those in the service categories of Schedule "A" of that order includes only such telephone service as is essential to such persons in carrying on their direct defense activities or in the discharge of their responsibility for public

health, welfare or security.

The fact that an applicant for telephone service is engaged in direct defense activities, or is within the service categories shown on Schedule "A" or holds a position which carries with it responsibility for public health, welfare or security is not of itself determinative of such applicant's right for service unless, in addition, the telephone service requested is essential to such applicant in the discharge of such public responsibil-

> PART 1112-OFFICE MACHINERY [General Limitation Order L-54-c]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials used in the production of office machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1112.4 General Limitation Order L-54-c-(a) Definitions. For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any person manufacturing new office machinery, of the types listed in Lists A and B, to the extent that he is engaged in such manufacture, and shall include majorityowned sales, distribution, and manufacturing subsidiaries.

(3) "Dealer" means any wholesaler, retailer or other distributor of new office machinery other than a sales or distribution subsidiary of a manufacturer, and shall include any person, firm or corporation normally receiving new office machinery on consignment.

(4) "New office machinery" means office machinery, including attachments thereto, of the types listed in Lists A and B, which has not been delivered to any person acquiring it for use. The term shall not include any machine which has been delivered for trial, loan, rental, or demonstration at any time prior to

March 14, 1942.
(5) "Delivery" includes any physical transfer of new office machinery, and includes transfers for trial, loan, rental. or the demonstration or other use: but the term shall not include the transfer to the consignee designated on the shipping documents, of any new office ma-chinery actually in transit at the date of issue of this order.

(6) "Army of the United States", "Navy of the United States" and "Maritime Commission" include the War Department, the Navy Department, and the Maritime Commission, respectively, but shall not include any privately operated plant, shipyard, training school, or other enterprise financed by or controlled by the Army or Navy of the United States, the Maritime Commission or any other agency of the United States Government. or any plant or shipyard privately operated on a cost-plus-fixed-fee basis under the control or direction of the Army or Navy of the United States, the Maritime Commission or any other agency of the United States Government.

(b) General restrictions—(1) Restrictions on production and delivery. No manufacturer shall hereafter manufacture new office machinery in greater quantities than specifically authorized herein or from time to time hereafter by the Director of Industry Operations; and no person shall hereafter deliver, or receive delivery of new office machinery in any manner other than as specifically authorized herein or from time to time hereafter by the Director of Industry Operations.

(2) Elimination of models. The Director of Industry Operations may, from time to time, order the cessation of production, sale or delivery of any model, style, or type of new office machinery, including attachments or repair parts thereof.

(c) Authorized production quotas.-(1) List A quotas. Between June 1, 1942 and November 30, 1942, inclusive, each manufacturer of the kinds of new office machinery listed in List A shall not manufacture a dollar value (based on retail list prices) of such new office machinery in excess of six times the percentage specified in List A of average monthly dollar value (based on retail list prices) of such kind of new office machinery billed to customers by such manufacturer during calendar year 1941. On and after December 1, 1942, no manufacturer shall produce any of the kinds of new office machinery listed in List A.

(2) List B quotas. Between June 1, 1942 and December 31, 1942, inclusive, each manufacturer of the kinds of new office machinery listed in List B shall not manufacture a dollar value (based on retail list prices) of such new office machinery in excess of seven times the percentage, specified in List B, of average monthly dollar value billed to customers by such manufacturer during the calendar year 1941.

(3) Basis on leased machinery. Any manufacturer whose customary practice has been to lease substantially all of any particular kind of new office machinery shall base his production quota of such kind of new office machinery on the average monthly number of new units manufactured during the calendar year 1941.

(4) Basis on exports of finished machines. The dollar value of assembled new office machinery which, during the

<sup>17</sup> F.R. 3029.

<sup>&</sup>lt;sup>1</sup>7 F.R. 2102, 2276, 3443.

calendar year 1941, was exported, shall be determined by the retail list price of the same kind of machinery to demestic customers.

(5) Sets of parts for export. During each month of the quota periods set forth in subparagraphs (1) and (2) above, each manufacturer shall not produce for export-a number of sets of parts of any kind of new office machinery in excess of the percentage set forth in List A or List B, as the case may be, of the average monthly dollar value of sets of parts of such kind of machinery shipped for export from his factories during 1941. The right to produce and export any such sets of parts shall not be construed to authorize the export of such sets unless an Export License can be secured. Quantities of sets of parts so produced shall be over and above the production quotas for finished machines set forth in subparagraphs (1) and (2) above. No manufacturer so producing and exporting sets of parts shall directly or indirectly import any new office machinery into the United States. As used in this paragraph, "sets of parts" means parts for new office machinery fabricated at plants in the United States and shipped to foreign countries for assembly into new office machinery.

(6) Further limitation on production rate. No manufacturer shall increase his production rate of any kind of new office machinery over his rate of production for such kind of machinery in April 1942, unless expressly authorized by the Director of Industry Operations.

- (d) Restrictions not applicable to replacement parts. The restrictions upon the manufacture of new office machinery shall not be construed to limit the manufacture of parts to be used to service or repair office machinery.
- (e) Distribution of new office machinery—(1) General restrictions. On and after the date of issuance of this order, regardless of the terms of any contract of sale or purchase, or other commitment, or of any preference rating, or any blanket preference rating order, no manufacturer or dealer shall deliver any new office machinery from his production or stock thereof except as follows:

(i) Back orders. A manufacturer or dealer may deliver new office machinery to fill orders actually on hand at the date of issuance of this order only to the Army or Navy of the United States.

(ii) Special orders. Manufacturers or dealers may apply for authorization to deliver special new office machinery which, on the date of issuance of this order, was assembled, or in the process of fabrication and assembly, but which could not otherwise be delivered under the terms of this order. Such application may be made by filing with the War Production Board, in triplicate, plainly marked "Ref.: I-54-c", a letter containing a list of all such orders, together with such information as will support the representation of the manufacturer or dealer that the machinery is special. As used in this paragraph, a "special" machine is a machine built to special specification for

a customer, with features which render it unusable except by a small class of Persons similarly situated. The Director of Industry Operations may thereupon, if he shall deem it necessary or appropriate in the public interest and to promote the national defense, authorize the delivery of all or any such special orders.

(iii) Future orders—(a) Army, Navy and Maritime Commission. From time to time, the Director of Industry Operations will notify manufacturers and dealers on Form PD-423, of quantities of new office machinery which may be delivered without further authorization to the Army of the United States, the Navy of the United States and the Maritime Commission. On and after the effective date of this order, manufacturers and dealers may not deliver new office machinery on Preference Rating Certificates PD-3 and PD-3A, except to fill back orders of the Army or Navy of the United States pursuant to paragraph (e) (1) (i).

(b) Other persons. Except as specified in paragraphs (e) (1) (ii) or (e) (1) (iv), on and after the date of the issuance of this order, no manufacturer or dealer shall deliver any new office machinery (other than an order for the Army, Navy or Maritime Commission) except pursuant to an order accompanied by a Preference Rating Certificate PD-1A, signed by the Director of Industry Operations on or after the date of issuance of this order, and rated A-9 or higher. Such Preference Rating Certificate PD-1A may be used to secure new office machinery only by the person to whom it was directly issued, and only when such office machinery is expressly specified on the face of the certificate. Persons entitled to new office machinery by virtue of a Preference Rating Certificate PD-1A who do not surrender such certificate, but retain the same, as permitted by Priorities Regulation No. 3, as amended from time to time, shall, in addition to furnishing the endorsement required by such Priorities Regulation No. 3. certify to the Person from whom the machinery is to be acquired that the certificate was originally issued to him and that the machinery was expressly specified on the certificate.

(iv) Delivery without restriction. (a) Any manufacturer may distribute his stock of any particular kind, model or type of new office machinery free of all restrictions upon delivery imposed under this order by complying with the following restrictions:

(1) On or before 30 days after the date of issuance of this order, such manufacturer shall notify the War Production Board of his intention to deliver any particular kind, model or type of new office machinery free of all restrictions upon delivery imposed under this order.

(2) On or before 30 days after the date of issuance of this order, such manufacturer shall halt all fabrication of parts for such kind, model or type of new office machinery.

(3) On or before 60 days after the date of issuance of this order, such manufac-

turer shall halt all assembly of such kind, model or type of new office machinery.

(4) During the fabrication and assembly periods specified above, such manufacturer shall not increase his rate of production of such kind, model or type of new office machinery above the rate of production at which he operated during the month of April 1942.

(b) The notification to the War Production Board, specified in subparagraph (iv) (a) (1) above, shall take the following form:

Director of Industry Operations—Ref: L-54-c, War Production Board, Washington, D. C.

Pursuant to the provisions of paragraph (1) (1) (iv) of Order I.—54-c, the undersigned hereby elects to distribute his stock of the mechines listed below without restriction. As a condition of such election, the undersigned will comply with the following order of the War Production Board:

- (1) To halt all fabrication of parts for new office machinery, of the kinds, models and types listed below, on or before 30 days after the date of issuance of General Limitation Order I-54-c.
- (2) To halt all assembly of new office machinery, of the kinds, models and types listed below, on or before 60 days after the date of invance of General Limitation Order L-54-c.
- (3) During the fabrication and assembly periods specified above, not to increase the undersigned's rate of production above the rate of production at which he operated during the month of April 1942.

The following types, kinds and models are subject to this order: (Here insert type of machine, model or style number, unit retail list price, use or application of machine, and the number of machines of this model sold on ratings of A-1-j or better during the first quarter of 1942.)

By \_\_\_\_\_\_ Company

(c) Unless the Director of Industry Operations notifies the manufacturer to the contrary on or before ten days after the date of mailing of the manufacturer's notification, the terms of this paragraph shall become effective to such manufacturer, for the kinds, models or types of new office machinery concerned, on the tenth day after such mailing. Such manufacturer, and any dealer possessing stocks of such kind, model or type of machine, shall be authorized thereafter to deliver stocks of such kind, model or type of machine without further restriction until such time as the Director of Industry Operations may, if he shall deem it necessary or appropriate in the public interest and to promote the national defense, deny the right of any such manufacturer or dealer to continue to operate under the provisions of this paragraph. Manufacturers who, on or after the tenth day after such mailing, become entitled to deliver without restriction shall notify their dealers of rights under this paragraph.

(d) The right of election under the terms of this paragraph shall expire thirty days after the date of issuance of this order. It shall be the policy of the Director of Industry Operations of the War Production Board, in considering appeals made after 30 days after the

date of issuance of this order, for relief from the distribution provisions of this order, to deny relief in excess of that which would have been secured had the manufacturer elected to operate under the provisions of this paragraph (e) (1) (iv).

(v) Intracompany deliveries. Without further authorization, a manufacturer for purposes of redelivery but not for use, may deliver new office machinery from one portion of his enterprise, included within the meaning of the term "manufacturer," to another, except to a subsidiary, branch, or other outlet located outside of the United States, its territories and possessions.

(vi) Deliveries of sets of parts. Sets of parts produced pursuant to the provisions of paragraph (c) (5) may be exported without further authorization from the War Production Board. No person shall export or otherwise deliver a quantity of sets of parts greater than the quantity

- authorized to be produced under the terms of paragraph (c) (5) hereof.
- (2) Special procedures and information—(i) Additional information to be furnished. Persons making application for new office machinery on Preference Rating Certificate PD-1A shall furnish in a statement attached to such PD-1A the following additional information:
- (a) The style or model number of the machine and a precise description of the machine.
- (b) The number of similar machines possessed by the applicant, and the condition thereof.
- (c) A statement of the attempt the applicant has made to purchase used machines of similar description.
- (d) If the new machine is desired for replacement purposes, the applicant shall furnish the following certification, duly signed by a manufacturer (or his duly authorized agent), a dealer, or a recognized repair man:

The undersigned has inspected the machine to be replaced by the machine herein applied for, and finds that it is impracticable to repair the old machine.

-----Company

No application upon Preference Rating Certificate PD-1A will be considered unless the foregoing additional information is attached thereto.

(ii) Special provisions for exporters-(a) Lend-lease. Any agency of the United States Government desiring to acquire new office machinery to be delivered to, or for the account of, the government of any country, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), shall accompany the application on Preference Rating Certificate PD-1A by a recommendation as to the necessity for such machinery.

(b) Other than Lend-Lease. Any person desiring to acquire new office machinery for export from the United States (other than an agency referred to in subdivision (ii) (a) of this subparagraph (2) must first apply to the Office of Export Control, Board of Economic Warfare, Washington, D. C., for an Export License, accompanying such application with an application on Preference Rating Certificate PD-1A. If the Office of Export Control decides that an Export License be issued to the applicant, such Preference Rating Certificate PD-1A will be forwarded to the War Production Board, together with a statement of such decision. The Director of Industry Operations may thereupon, if he shall deem it necessary or appropriate in the public interest and to promote the national defense, grant the application for a preference rating.

- (f) Deliveries to dealers and returns to manufacturers. Without further authorization manufacturers or dealers may deliver new office machinery to dealers in the following two instances only:
- (1) To replace new office machinery delivered by such dealer to fill an order authorized by the terms of this Order L-54-c; or
- (2) To fill an order authorized by the terms of this Order L-54-c actually received by such dealer.

In both instances, the dealer shall furnish to the manufacturer or other dealer a photostat or certified copy of the PD-1A or other authorized basis for delivery of new office machinery. Reproduction of any PD-1A or other document for such purpose is hereby permitted. Without further authorization, dealers may return new office machinery to any manufacturer willing to accept the same, and manufacturers may accept delivery of such new office machinery from dealers.

(g) Existing contracts. Fulfillment of contracts in violation of this order is prohibited regardless of whether such contracts are entered into before or after the effective date of this order. No person shall be held liable for damages or penalties for any default under any contract or order which shall result directly or indirectly from compliance with the terms of this order.

(h) Applicability of Priorities Resulation No. 1. This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern. Nothing in paragraph (e) (1) (iv) shall be construed to waive any of the provisions of

Priorities Regulation No. 1.

(i) Appeals. Any manufacturer affected by this order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him; or that it would result in a serious problem of unemployment in his community, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the Director of Industry Operations, Ref: L-54-c, Washington, D. C., setting forth the pertinent facts and the reasons why such Person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

- (j) Records. All manufacturers and dealers affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production and sales of new office machinery.
- (k) Reports. All persons affected by this order shall execute and file with the Services Branch, Division of Industry Operations. War Production Board, such reports and questionnaires as said branch shall from time to time request.

(1) Violations. Any person who wilfully violates any provision of this order. or who wilfully furnishes false information to the Director of Industry Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director of Industry Operations.

(m) Communications to War Production Board. (A) By selling for resale during the period October 1, 1940 to February 23, 1941, both dates inclusive, approximately 27,249.35 tons of run of mine coal produced at said mines, to Pittsburg & Shawmut Coal Company, a registered distributor, Registration No. 7349, Kittanning, Pennsylvania, (the "Distributor") at prices below the minima therefore established by the Division and allowing said Distributor which physically handled said coal, excessive and unauthorized distributors' discounts, in wilful violation of Rule 1 of section III of the Marketing Rules and Regulations, section 4 Part II (e) of the Act and Part II (e) of the

(B) By filing on March 31, 1941, for the period of October 1, 1940 to February 28, 1941, copies of false and untrue invoices with the Statistical Bureau for District No. 1, for the coal described in paragraph (A) above in wilful violation of section 4 Part II (i) (8) of the Act, Part II (i) (8) of the Code, Rule 3 of section XII and Rule 8 of section XIII of the Marketing Rules and Regulations;

(C) By failing to file with the Statistical Bureau for District No. 1, during the period October 1, 1940 to February 28, 1941, both dates inclusive, (1) copies of certain contracts within 15 days after entering into said contracts and (2) copies of certain spot orders within ten (10) days from accepting said spot orders in wilful violation of the provisions of

Order No. 14 of the Division, Rule 3 of section V and Rule 7 of section VI of the Marketing Rules and Regulations.

(1) In the Amended Application the code member admits that it wilfully violated section 4, Part II (e) of the Act, Part II (e) of the Code, and Rule 1 of section III of the Marketing Rules and Regulations by selling coal to the Distributor at prices less than the minima therefor established by the Division, and allowing to the Distributor which physically handled coal, excessive and unauthorized discounts in the form of commissions, deductions for reject coal, amounts paid for railroad car stopovers, transfers, and cleaning and sizing charges and that these amounts represent the difference between the effective minimum prices for said coal of \$2.05 per net ton f. o. b. said mine for use as railroad locomotive fuel and the \$1.50 and \$1.65 per net ton f. o. b. said mines received by the code member as follows:

(a) During the period January 11, 1941 to January 15, 1941, both dates inclusive, 810.45 net tons of run of mine coal produced at its Freebrook No. 7 Mine at \$1.50 per net ton f. o. b. said mine, upon the basis of which the code member consents to the entry of a cease and desist order;

its code membership;

(c) During the period November 25, 1940 to January 15, 1941, both dates inclusive, 9,765.80 net tons of run of mine coal produced at said McWilliams Mine at \$1.50 per net ton f. o. b. said mine, upon the basis of which the code member consents to the entry of a cease and desist order: and

(2) With respect to the allegation contained in the complaint that the code member wilfully violated section 4 II (1) (8) of the Act, Part II (1) (8) of the Code, and Rule 3 of section XII and Rule 8 of section XIII of the Marketing Rules and Regulations as set forth in paragraph (B) above, the code member neither admits nor denies said allegation but does admit that it wilfully violated the Act, the Code, and the Marketing Rules and Regulations by failing to file proper invoices for the transactions referred to in said allegation.

(5) In its Amended Application, the code member states that to the best of its belief and knowledge it has not committed any violations of the Act, the Code, or rules and regulations thereunder, including the Marketing Rules and Regulations, either before or after the above-admitted violations occurred, whether of the same or of any other character other than these referred to in paragraphs (1), (2), (3), and (4) hereof.

The matters concerned herewith are in regard to the applications of Public Service Company of Indiana, pursuant to section 4-A of the Act, for a determination of the status of the coals produced at the Dresser Mine, Vigo County, Indiana, in District No. 11. The applications allege that such coals are exempt from section 4 of the Act because they are consumed by applicant, the producer thereof, or transported by applicant to itself for consumption by it, within the meaning of section 4 II (1) of the Act. The applications further allege that the transactions in the coals

produced at the said mine are in intrastate commerce and do not, as between persons and localities in such commerce on the one hand and interstate commerce in coal on the other hand, result in any undue, unreasonable or unjust discrimination between interstate commerce in coal or in any manner directly affect interstate commerce in coal, pursuant to the first paragraph of section 4-A of the Act.

CLAUDE E. TAYLOR

ORDER APPROVING AND ADOPTING PROPOSED FINDINGS OF FACT AND PROPOSED CON-CLUSIONS OF LAW OF THE EXAMINER AND DISMISSING PROCEEDING

In the matter of Claude E. Taylor, code member.

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on October 4, 1941, by the Bituminous Coal Producers Board for District No. 8 pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937. The complaint alleges that Claude E. Taylor, a code member in District No. 8. wilfully violated the Bituminous Coal Code and the rules and regulations thereunder and prays that the Division either cancel and revoke code member's code membership or, in its discretion, direct the code member to cease and desist from violations of the Code or rules and regulations thereunder.

After due notice to interested persons, a hearing in this matter was held December 15, 1941, before Charles S. Mitchell, a duly designated Examiner of the Division in a hearing room thereof at Middlesboro, Kentucky. All interested persons were afforded an opportunity to be present, adduce evidence, crossexamine witnesses and otherwise be heard. Appearances were entered by complainant and by code member.

Examiner Mitchell submitted on April 23, 1942, his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation. The Examiner found that Claude E. Taylor, a code member in District No. 8, sold on April 17, 1941, 226.4 tons of %" x 0 coal produced at Mine Index No. 1556 at a price substantially below the minimum price that would have been applicable had the coal been sold for truck shipment. Examiner Mitchell found, however, that although the coal had been moved from the mine by truck the coal had been ultimately shipped by rail and that, therefore, since such coal was not priced for rail shipment, code member had violated the Order in General Docket No. 19. Since Taylor had been charged only with having sold coal below the minimum price established for truck shipment, the Examiner recommended that the proceeding be dismissed.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner and supporting briefs. No exceptions or supporting briefs have been

The undersigned has determined the proposed findings of fact and proposed conclusions of law in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That this proceeding be and it hereby is dismissed without prejudice. Dated: May 30, 1942.

Bruce Anderson an individual doing business as Helen Jennings Coal Company at his aforesaid mine, and purchased for resale by said registered distributor from said code member, the granting of which settlements or allowances by said registered distributor resulted in the resale of said coal to said purchasers at prices below the minimum therefor established by the Division in the Schedule of Effective Minimum Prices for District No. 1 For All Shipments Except Truck, as amended and supplemented by Order of the Director entered in Docket No. A-663, dated April 18, 1941, without complying with the provisions of Section X of the Marketing Rules and Regulations, which resulted in violations of Rule 1 subparagraphs (a), (b), (c) and (d) of said section X, section 4 Part II (e) of the Act, Part II (e) of the Code, and para-

graphs (b), (e) and (f) of his Agreement.

- 5. In granting the settlements or allowances described in paragraph 4 hereof, (1) adjusted claims with said purchasers in such manner as to grant secret allowances, secret rebates or secret concessions, or other price discriminations; (2) granted adjustments, allowances, discounts, credits or refunds to said purchasers for the purposes or with the effect of altering retroactively prices agreed upon, in such manner as to create price discrminations, and (3) paid or allowed rebates, refunds, credits or unearned discounts, which resulted in violations of Rules 2, 4 and 6, respectively, of section XIII of the Marketing Rules and Regulations, section 4 Part II (i) paragraphs 2, 4 and 6 respectively of the Act, Part II (i) paragraphs 2, 4 and 6, respectively, of the Code, and paragraphs (c) and (e) of his Agreement.
- B. Whether or not the registration of said Lawrence H. Dowling, doing business as Dowling Coal Company, registered distributor, Registration No. 2472, should be revoked or suspended, or other appropriate order should be issued.

In the matter of Miller Coal Company (H. P. Miller, owner), defendant.

A written complaint dated July 24, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, (the "Act"), having been duly filed on August 4, 1941, by the Bituminous Coal Producers Board for District No. 3, a district board, complainant, with the Bituminous Coal Division alleging wilful violation by the above-named defendant of the Act, the Bituminous Coal Code, (the "Code"), or rules and regulations thereunder; and

An Order having been issued herein on January 12, 1942, after hearing on said complaint, cancelling and revoking the code membership of Miller Coal Company (H. P. Miller, Owner), effective fifteen (15) days from the date thereof, and said Order having been duly served on the said Miller Coal Company (H. P. Miller, Owner) on January 20, 1942; and

The said H. P. Miller having filed with the Division on May 14, 1942, his application dated May 11, 1942, for the restoration of his membership in the Code: and

It appearing from said application that the said H. P. Miller has paid to the Collector of Internal Revenue at Parkersburg, West Virginia on April 2, 1942, the sum of \$163.16 pursuant to said Order dated January 12, 1942, as a condition precedent to the restoration of his membership in the Code;

[Docket No. B-70]

In the Matter of Jake Absort, Code Melider

ORDER APPROVING AND ADOPTING PROPOSED FINDINGS OF FACT, PROFOSED CONCLUSIONS OF LAW AND RECOMMENDATION AND DISMISSING PROCEEDING

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on October 4, 1941, by the Bituminous Coal Producers Board for District No. 8, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937. Complainant alleges that Jake Abbott, a code member in District No. 8, wilfully violated the Bituminous Coal Code and the rules and regulations thereunder, and prays that the Division either cancel and revoke Abbott's code membership or, in its discretion, direct code member to cease and desist from violations of the Code or rules and regulations thereunder.

After due notice to interested persons, a hearing in this matter was held on December 15, 1941, before Charles S. Mitchell, a duly designated Examiner of the Division, at a hearing room thereof in Middlesboro, Kentucky. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Appearances were entered by complainant and by code member.

Examiner Mitchell submitted on April 23, 1942, his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation. The Examiner found that Jake Abbott, a code member in District No. 8, sold on June 2, 1941, about 177.5 tons of 36" x 0 coal, Size Group 8, produced at Mine Index No. 1492, at a price substantially below the minimum price that would have been applicable had the coal been sold for truck shipment. Examiner Mitchell found, however, that although the coal had been moved from Abbott's Mine by truck, it had been ultimately shipped by rail. The Examiner concluded there-fore that a price established for truck shipment was inapplicable to the sale and recommended that the proceeding be dismissed because cod member had been charged only with having violated

the schedule for truck prices and not with having sold unpriced coal.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner and supporting briefs. No exceptions or supporting briefs have been filed.

The undersigned has determined that the proposed findings of fact and proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That this proceeding be, and it hereby is, dismissed without prejudice.

Dated: May 30, 1942.
